

(A). FENCE RENOVATION PROJECT.

Two sides to handling the fence issue: Either:-

- I. Reconditioning the fence, OR
- II. Replacing the sticks & Reeves completely.

Budget for the Reconditioning:

Rope: the bad condition of the sticks and reeves, can't allow nails to hold the sticks.

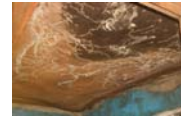

- ❖ A bundle of rope cost: $\$25.00 \times 5 = \125.00 USD
- ❖ Few sticks to hold the rope around the reeves - $\$50.00$ USD
- ❖ No workmanship because this does not require professional skills, so my pastors, and ministers, can do the job.

Grand total: \$175.00 (cost for reconditioning the fence)

Budget for Replacing the old sticks & reeves with new ones (New fence)

Cost for Replacing or Reconstruction of the fence:

- Reeves: $\$250.00$
- Sticks: $\$300.00$
- Transportation for two trips: $\$250.00$
- Nails: $\$5.00$ for pack $\times 15$ pks. = $\$75.00$ USD (For the entire fence in and out).
- Planks for the front door frame & strip door: $\$65.00$
- Planks for the back door frame & strip door: $\$65.00$
- Workmanship: $\$100.00$ USD

Total: \$1,105.00 USD

(B). RENOVATION ON THE FOLLOWING:

- Boys dorm
- Porch wall crack
- Activity hall floor
- Ceiling (Kitchen, and boys dorm)
- Roof

Cost estimate:

- 1) 10 bags of cement: $\$35.00$ for a bag $\times 10$ bgs = $\$350.00$
- 2) Half truck load of sand: $\$175.00$
- 3) 1 bundle of Zinc: $\$135.00$
- 4) Nails: $\$5.00$ per pack $\times 2 = \$10.00$ USD
- 5) Ceiling tile: $\$8.00 \times 10$ pieces = $\$80.00$

Total: \$750.00

Summary

-New fence

-Renovation of the entire building including the ceiling and roof

$\$1,105.00$ (New fence)

$\$ 750.00$ (Entire building renovation)

Grand total: \$1,855.00
